New Hosiery Duty.

The new duty on all Ladies' and Children's Hosiery now operative makes the prices of all low grade hosiery prohibitive. As an example, Children's Cotton Sox, costing 4/- per doz. in England were previously landed in our store for 5/8½. The new duties, omitting other charges, will now increase the price to 10/- per doz., an advance of almost 43 per cent. The prices of low grade imported Hosiery in this catalogue have not been increased, but it necessarily follows that when present stocks are gone, they cannot be replaced at anything like the marked prices. You will, therefore, be wise to lay in stocks in this regard while advantageous prices prevail.

Sheets and Sheetings Celebrated for Service!

HOW TO BLEACH GREY SHEETINGS

You buy Grey Sheetings because they give greater wear than white sheetings of a similar price. Now try the effect of a little scientific bleaching. Soft boil this Grey Sheetting two or three times, lay out flat on the grass, and let the sun blaze down upon it. Do this several times, and a perfect bleach results. There's the way to have the best white sheeting at the cheapest possible price. Try it!

Delivery and Mail Order Instructions

Two things we would emphasise in connection
with our Grocery Service:—

1. Prices are wonderfully low at the same time
as stocks are always fresh and of high quality.
Our huge business takes care of that.

2. Groceries and Provisions are packed and
delivered, free of charge, to Rail or Steamer, or
"For enclosure" Sydney, but actual freight beyond
those points is additional to quoted prices.

For Wines, we charge 1/- dozen extra for special
packing. For Ales, the packing charge is 1/9
dozen additional to freight.

Here's a tip: Where your own individual order
would not be very great, try clubbing a few orders
together among your friends to decrease the freight
comparatively. You'll find quite a saving in plac-
ing your general supplies direct with Mark Foy's
on this basis.

Prices Do Not Include Freight.

PAPERING ESTIMATES

Prepared to Help you decide.

Take the dimensions of the walls and ceilings that you wish to cover; suggest to us the design and colour tone that you want; indicate even the average lighting of the room in question, whether it is ordinarily dull or enjoys a big proportion of morning or afternoon sunlight—all will aid us in showing that it is not so expensive after all to have artistic decoration that lasts longer and serves better. Our prices are right! When writing for Patterns, be as definite as possible as to colouring, style, and approximate price.

A Throttling Governor Engine of the latest type — absolutely automatic — steady and powerful. Customers say "Runs like a motor" — "Steady as Steam" — "Can't be equalled."

Smoother, even speed from a throttling Governor—no springs—no parts to get out of order. Increases power, work and service.

Less Parts—Less Wear—Longer Life—Simpler—Easy as A.B.C. to understand.

A kerosene, gasoline or distillate engine—designed and built for kerosene. No air heaters, no special attachments; not a make-shift, but a real kerosene engine. More power—less cost.

Carburettor or fuel mixer—it's a WITTE Special—changes fuel into gas and mixes for best results. Insures more power and economy.

Leak-proof rings—ground to size. Hold compression—insure power and economy in fuel.

Engines come with complete equipment ready for work—no expert needed to install it—no extras to buy.

An engine that a woman or boy can run—easier to handle, simple, always ready.

Exclusive WITTE speed regulator furnished on each engine. Positive screw adjusting — can change speed and power of engine at will

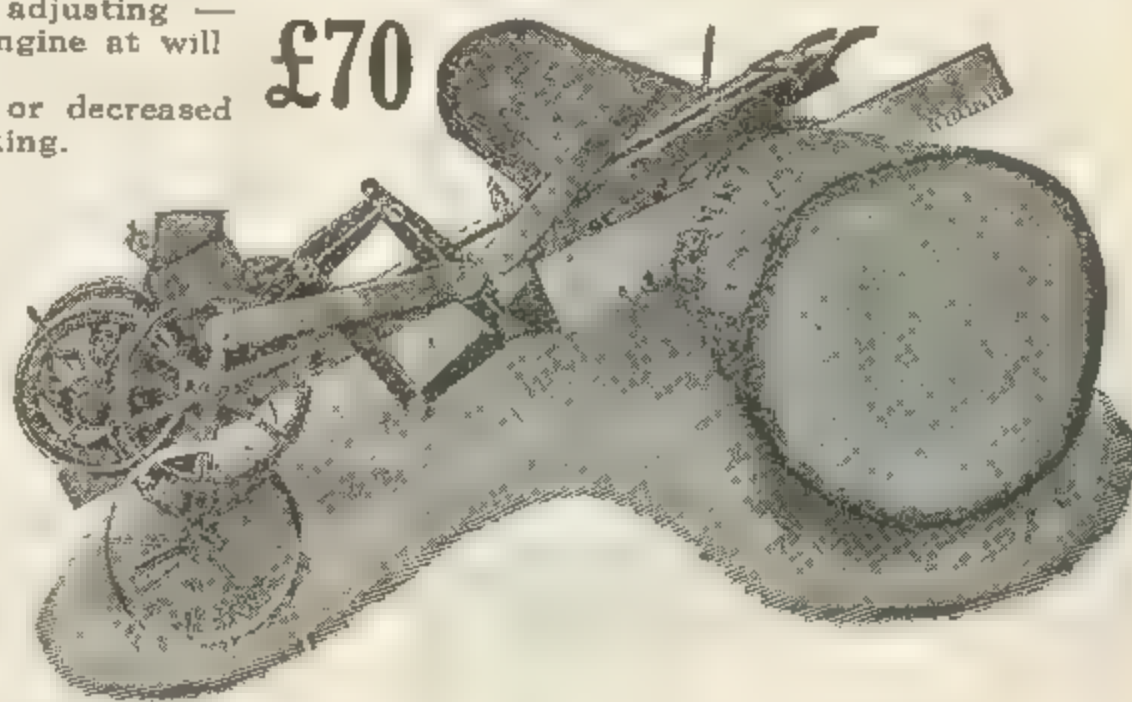

Speed can be evenly increased or decreased while running—no jerking or racking.

Connecting Rod, the Arm of the Engine, of proper length to transmit full power. Special WITTE type with clamp bolt and spring lock washer.

Bearings extra wide — of high grade WITTE frictionless metal — insuring long, lasting service.

Anti-Splash Hopper — special WITTE type—prevents water from splashing out. Large cooling space.

Witte Engines operate equally well on either Kerosene, Gasoline, Distillate, Alcohol or Gas. Economical, powerful. Easier to handle, fewer parts. Greater surplus power, less cost. Speed and power reduced, increased, or regulated at will by merely turning a thumb screw. Starts without cranking. Tell us what you wish to operate and we will recommend the size and style engine or outfit best suited for your purpose. Repairs or replacements on WITTE Engines — any style—are always obtainable by giving number of engine and name of part.

**The "WITTE," applied as a Log and Tree Saw. (Indent only).**

Saws logs into any desired length for any purpose. Fast cutting. Easy to operate. Arm Swing motion as in hand cutting. Saw is driven by powerful gear attached to engine base. Longer saws on order. Quickly changed to Tree Saw by changing saw head and pitman. Price, £70.

Powerful Magneto Ignition Supplies a Constant Fat Spark.

The Magneto used is the last word in perfect ignition. Because it is built for rough, farm and shop usage, it can be relied upon to give that dependable economical service that is necessary to the proper functioning of the hardest worked engine. Magneto is built-in, ready for service. Its functioning is unaffected by weather conditions. It starts and runs the engine; wet or dry, winter or summer, your spark is always certain.

These prices are subject to revision owing to the Federal Parliament having raised the tariff on oil engines. Stocks landing since November, 1925, will carry increase.

Dependable material, plus added strength at points of strain, insure endurance in every FOY OUTDOOR BLIND.

We are too proud of our reputation as Universal Suppliers to sell a blind which has so much hard work ahead of it, unless we are sure that from its very quality it promises the utmost in satisfactory shade service. We choose the material for wear. Expert workmanship fashions the blind

for strength with strong linen thread stitching. In all cases the sides are hemmed to ensure true running and resistance to wear. The result is utmost value and satisfaction for every shilling you pay for your blind.

Blinds, as listed below, are complete with a Top Pocket for Lathe, Bottom Pocket for Octagon Roller, 2 Single Pulleys, 1 Double Pulley, Cleat, Staples, Straps, and length of Best Hemp Cord. If required, we can make a doorway in Blind Material or Leather, to prevent wear, for little extra
